

Specification Sheet

Securelock Ridged Tail (RT)

The Secure Lock RT is a **miniature, pull-through seal** with a 2.8mm diameter ridged tail. The seal is made from **nylon 66 material** and also features an acetal lock insert, which makes the seal resistant to **extreme temperatures** (-40°C to +60°C).

The Securelock range is produced with a black surround onto which markings are laser-printed, for clear and **aesthetic finish**. It is an ideal solution for applications where **space is at a premium**, but for which a strong and durable seal is required.

Applications

Boxes and bins, roll cages, inspection hatches, lockers, vehicle doors, secure containers, courier bags

Size Guide

Standard length 190mm (useable 135mm)

Material

Nylon (polyamide 66) (100% recyclable)
/ acetal locking insert

Technical specs

Operating temperature: -40°C to +60°C
Tensile strength: 18kgF

Packaging

Mats of 5pcs, cartons of 1000pcs
Carton Dimensions: 41x26x14cm (2.3kgs)
Pallet info: 90,000pcs

Available Colours

Stock Colours: red and blue (pre-numbered)
Other colours on request: green, yellow, white

Customisation Options

Organisation logo, bespoke text and markings, sequential numbering / barcoding / QR codes.
