

Specification Sheet

UNI411 Security Seal

The UNI411 security seal is a strong polypropylene pull-through seal with smooth tail and integral **stainless-steel metal insert**.

The UNI411 has a **30KgF pull-strength**, making it ideal for securing larger or bulkier **items and enclosures**, sacks, vehicles, valves or containers to prevent tampering by unauthorised users. It is also suited for the sealing of **election ballot boxes**.

The UNI411 is available in two overall lengths: **290mm** (short) & **360mm** (long).

Applications

Elections ballot boxes, postal and mail applications, fuel and inspection hatches, secure logistics and transport applications
