**Universeal**

Specification Sheet

UNI414 Security Seal

The **UNI414 seal** is a polypropylene pull-through security seal with metal insert for increased security. The **slimline 2mm diameter** tail combines flexibility with strength for many tamper-evident applications, including **tanker valves, ATM's, airline trolleys** and **laboratory use**.

The UNI414-Short (320mm length) is available in our UK warehouse in red, yellow and green colours; serving as a useful **traffic light colour-coding** system for many user applications.

Applications
Enclosures, such as tote boxes, election boxes and airline trolleys, secure transportation, laboratory equipment, fuel / tanker valves

Size Guide
Short	320mm (useable 230mm)
Long	420mm (useable 330mm)

Technical specs
Operating temperature: -20°C to +80°C
Tensile strength: 15kgF

Packaging

	UV414-S	UV414-L
Quantity	1,000pcs	1,000pcs
Carton Dimensions	24x33x33cm	24x44x33cm
Box Weight	3.6kg	4.0kg
Pallet Info	100x120x215cm (90,000pcs)	90x120x215cm (60,000pcs)
