

Uniflag Seal (UVFLAG586)

Our **UniFlag Big Tag** product is a sturdy and heavy-weight polypropylene seal featuring a **large paddle**.

It is available plain for affixing of **adhesive labels**, or available with **customised printing**. The extra-large flag area (108x56mm) is particularly suited for attaching large and detailed labels used by **recycling**, **courier** and **postal** companies.

The Uniflag seal features a thick tail for added **pulling strength of 40KgF**, and a slot for tidying away excess tail length.

All dimensions in mm.

Applications

Courier, mail & postal companies / council garden waste and other recycling schemes / general industrial and retail tagging applications
