

Specification Sheet: G-Lock (UVGL)

The G-Lock seal is a strong and durable polypropylene pull-through seal, available (if required) with a tear-off facility - to allow easy removal without the need for tools.

Available in 3 lengths:
220mm, 350mm and 400mm (tail length)

The G-Lock is laser-printed or hot-foil printed with company name / other text, bar-coding, numbering or art-work according to customer requirements.

Applications

Cash bags, sacks, waste bags, roll cages, tote boxes, polythene bags, clinical waste

Options

220mm - tear-off version only
350 and 400mm - tear-off and non-tear option
Range of colours

Thermal transfer or hot foil printing: names, general text, company logos, telephone numbers, sequential numbers
